

Request for Proposal (RFP)
FSM National Department of Education
May 13, 2010

The National Department of Education is pleased to issue this request for proposal for two purposes:

1. Conduct high school math workshops in Kosrae and Chuuk.
2. Implement a database for the Bridging the Gaps Projects Database at the NODE Office at Palikir, Pohnpei.

DELIVERABLES

For High School Mathematics Component:

1. A five days Mathematics content workshops in Kosrae state Chuuk State on but not limited to the following: Polynomials, Equations, Surds, Indices, Logarithm, Inequalities Matrix Algebra, Analytical Geometry, Euclidean, Geometry, Cartesian Coordinates Polar Coordinates Trigonometry, Differential Calculus, Integral Calculus, Sets, Relations, Functions, Imaginary Numbers, and others that may be requested by workshop participants
2. A computer software (i.e., using Visual Basic for Applications in Excel) that will help high school teachers in preparing for their mathematics content

For Database Component:

1. A database system that will allow NDOE personnel to enter the activities under each project of NDOE and generate analysis information (Frequency Tables and Cross-Tabulations) for those projects. Thus it will not be specific only for bridging the Gap project.
2. One-day training on the use of the above-mentioned data system.

TIMEFRAME

Please send your proposal not later than May 28, 2010 to the following address:

FSM National Department of Education

E-mail: cshoniber@fsmed.fm

Facsimile: 691-320-5500

The mathematics workshop in this proposal will be carried out from 6/18/2010 through 7/12/2010.
